

SNIFF SOMEONE YOU LOVE

Dear Participant

We are asking for your help in this online questionnaire where we want to quantify the prevalence of olfactory sampling and self-sampling behavior. Such behavior is oddly treated as either taboo at one end, or a source of humor on the other, yet we genuinely want to obtain estimates of its prevalence.

You can answer all or only part of the questions.

After you submit your answers, you will see the average answer to each question

The questionnaire is anonymous
